In the Matter of

Connect America Fund Rural Broadband Experiments )

Petition of Brainstorm Internet )

For waiver of requirement to provide three years )

Of audited financial statements for the post selection )

Review )

WC Docket No. 10-90

**PETITION FOR WAIVER**

On December 5, Brainstorm Internet was named a provisionally selected bidder in the Rural Broadband Experiments. The post selection review process requires that all selected bidders provide three years of audited financial statements within 10 business days. Brainstorm Internet requests that the Commission grant a waiver of the requirement to provide three years audited financial statements.

**JUSTIFICATION**

We will be filing unaudited financial statements for the years ended 2011, 2012, and 2013 with FCC Form 5620. We believe, however, that Brainstorm Internet is financially qualified to undertake the work contemplated in our bid.

From its founding in 1999 until October of 2013, Brainstorm internet was owned by a single shareholder who was also the president and CEO of the company and of course intimately involved in running the company on a full time basis. As the single shareholder with intimate knowledge of all activities within the company there was no business reason to commit the time and resources to conduct an audit of the financial statements. Although the company also had bank loans from time to time, including SBA loans, none of the banks required audited financial statements as a condition of lending. As such, the company has never had audited financial statements.

The company successfully implemented a \$4.4M project for EagleNet, funded by NTIA BTOP, over the 2012-2013 time frame, similar in scope to the work now contemplated.

Additionally, Rio Blanco County of Colorado (the census block locations for this bid), will be independently funding in parallel with this project the construction of backhaul services and other wireless infrastructure necessary for Brainstorm to fulfill Category 1 services to all of the census blocks provisionally awarded. A Rio Blanco County Letter of support will be filed with FCC Form 5620.

Brainstorm Internet was acquired by Futurum Communications in October of 2013. The company presently operates as a subsidiary of Futurum. Futurum operates in a completely different market than Brainstorm, and similar to Brainstorm has not previously had a business reason to provide audited financial statements. Futurum Communications ownership will be Filed with FCC Form 5620.

Respectfully,
